# Report of Principal and School Improvement Council

Stiles Point Elementary is a neighborhood school, featuring an experienced staff with a supportive community, an involved PTA, and eager volunteers. We have high expectations and excellent academic and citizenship programs. We have achieved many awards (e.g., The Community of Readers Award, Exemplary Writing Award, Charleston County Recycling Award). But we face many challenges ahead as we develop students' academic and citizenship proficiencies, as related to the state standards. We are developing our math program to support students' problem-solving strategies in context, use of manipulatives and technology, and increasing their PACT English language arts, math, science, and social studies achievement levels. There are now higher expectations about what is taught and when it is taught. Teachers are expected to work together to plan, implement, teach, and assess the students by using a coherent curriculum with the state standards.

Expectations continue to increase with the implementation of state standards in all subjects. The push for more one-on-one instruction by the teachers (reduced class size) is definitely impacting the school. Our teachers are expected to teach more, with greater variety, and with higher-level thinking skills. In grades K-2, teachers use Dynamic Indicators of Basic Early Literacy Skills (DIBELS) as an efficient measure of the fundamental skills that underpin the development of literacy in young children. With the implementation of Measures of Academic Progress (MAP) in grades 2-5, the teachers receive immediate feedback about the needs of the students. This feedback allows the teachers to plan remediation and/or enrichment activities for the students. The education of our children still remains our highest priority.

One of our most daunting challenges is funding to support instruction for our students and the implementation of state standards. We continuously need to upgrade our curriculum materials and technology (we added 32 digital document cameras, 32 LCD projectors, 18 SMART Boards, and 8 laptop computers in the last two years.). We must meet the continuing challenge to provide the best instruction and materials for our future leaders of a competitive global economy.
